Box 3 Stack

Demo: <http://demo.yuzoolthemes.com/box3/>

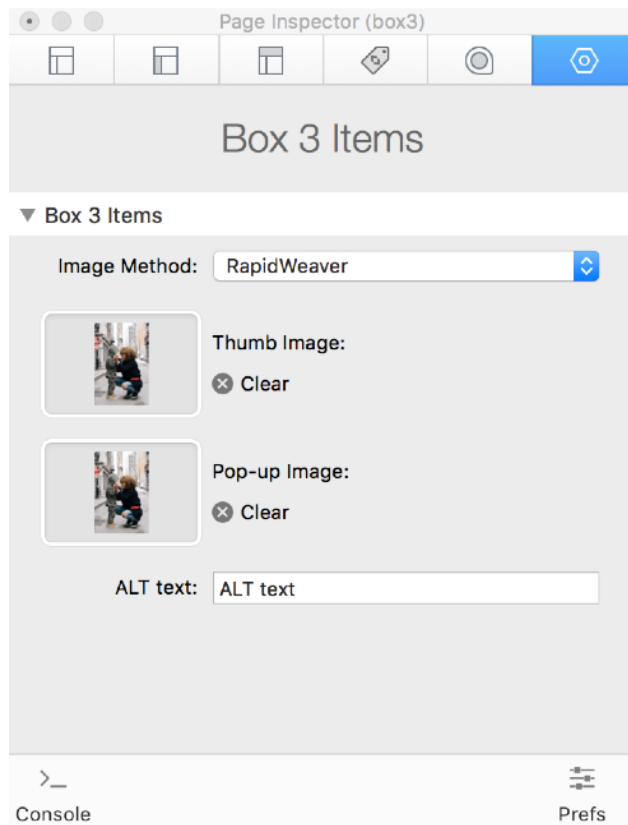

Overall Help

See this video for a run through:

General Settings

These should be straight forward. Options for setting up the Box 3 Items:

You can select between “warehouse” or “rapidweaver” for your images. A run through of Warehousing (what it is and the benefits) can be found in our free course [“5 steps to better weaving”](#)

You rearrange the items and add as many as you want, with no need to create the grid. The Stack builds it automatically.

You can set the max thumbnail height in the Base stack but in most cases shouldn't be necessary.

That's all folks!

Hope you like it and happy weaving!
